Your machine
our responsibility.

*Customer service and quality are
values that we hold dear.*

www.jupidex.co.za

We believe on our high quality products!

More than 140 years of experience in developing products including special steel and heat treatment processes have resulted in an unsurpassed quality and wear resistance. Kverneland machine design is the result of long study, thorough test plans and passion from experienced R&D engineers to optimise the quality and efficiency leading to high customer satisfaction year after year.

- Machines have to be a 2022 production year or newer.
- Registered from 01/01/2023 and later.
- The 1 year inspection has to be completed as per the forms from KvG.
- Include photos of the machine when submitting the inspection form.
- Submitted via email to christopher.laubscher@jupidex.co.za
